## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 30 July 2004.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

1. Claims 2, 3, 8, and 11-12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species. Applicant timely traversed the restriction (election) requirement in the reply filed on 7-30-04. Applicant should note, after more detailed review of the claims, it is noted claims 2 and 11 are additionally drawn to non-elected species only.
2. Applicant's election with traverse of the species of figure 2 in the reply filed on 7-30-04 is acknowledged. The traversal is on the ground(s) that the subject matter of the species is sufficiently related so as to require a single search. This is not found persuasive because while it may be that a similar search would be conducted for the defined species, these inventions are of sufficiently divergent nature such that the election requirement is warranted.

The requirement is still deemed proper and is therefore made FINAL.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "43" has been used to designate both a housing and a window. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not

accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. The drawings are objected to because label "9" on figure 7 should be ~~59~~. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

5. The disclosure is objected to because of the following informalities: "27" on page 4 – line 19 should be ~~29~~. Additionally, "74" on page 6 – line 26 and "18" on page 6 – line 36 should be ~~64~~—and ~~68~~— respectively.

Appropriate correction is required.

6. Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 14, the phrase "appears to extend...part" in the last two lines is not understood.

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1, 4-7, 9-10, and 13-15, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Jacobs '745.

Jacobs teaches a protection piece including a wall 62+ and a flap 68+.

Re claim 1, the flap can retract to some degree in the event of contact with the wall to provide a protecting function as broadly claimed.

Re claim 6, at least element 72 defines a support piece as broadly claimed.

Re claim 9, see fastener 80+.

Re claim 10, the faster means is fusible as broadly claimed.

Re claims 13 and 15, see figure 4.

Re claim 14, the device is configured as best understood.

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. At least McCoy et al teaches an impact absorbing structure for a vehicle panel.
